

# BPA Energy Efficiency Weekly Announcements, September 18, 2014

## Events

### Save the Date: Efficiency Exchange 2015 -

Mark your calendars! Efficiency Exchange will be held April 21 -23, 2015 at the Oregon Convention Center in Portland, OR...[More](#)

## General

### Utility Sounding Board Vacancies

BPA is excited to announce that beginning in January we will have three open seats on our Utility Sounding Board, and we are seeking nominees to fill these positions....[More](#)

## Program Updates

### You're Invited! -

Please join the BPA Lighting Team in celebrating Lighting Calculator 3.0 and 3.1's transition into retirement. Both of these lighting calculators helped usher in a new age of increased functionality and flexibility for utilities and trade allies. Now it's time for them to head out to a pasture in the country where they can run, skip and calculate annualized kWh savings to their heart's content.

In lieu of gifts, LC 3.0 and 3.1 have asked that utilities and trade allies express their well-wishes in the form of quality lighting projects submitted via LC 3.2 or 3.3.

Any lighting projects using LC 3.0 or 3.1 must be submitted to BPA for invoicing no later than September 30, 2014.

Please see the Birth Announcement in this edition of the Weekly Announcements for more information on Lighting Calculator 3.3, or contact the Lighting Team at [lighting@bpa.gov](mailto:lighting@bpa.gov) with any questions.

### It's a...Calculator! -

The Lighting Team is happy to announce the arrival of Lighting Calculator 3.3! Little LC 3.3 weighed in at just over 4.5 MB and is developing rapidly--already enjoying a solid diet of enabled macros.

---

Please stay tuned for a future Brown Bag session that will highlight the new features of LC 3.3. LC 3.3 will be available for download beginning October 1, 2014 on the BPA website as well as the NW Lighting Network.

Please contact the Lighting Team at [lighting@bpa.gov](mailto:lighting@bpa.gov) with any questions.

## Reminders

### **Save the Date: BPA Utility Round Tables -**

The recent Efficiency Exchange offered an excellent opportunity to interact in person, but smaller regional gatherings provide a unique chance to discuss more localized issues. To help bolster this effort BPA is organizing a series of regional utility round tables to be conducted in the later summer and early fall in five different Northwest regions. Each meeting will feature informative presentations and provide an open forum for discussions on program development...[More](#)
